SUNCOAST CHAPTER
Virtual Awards Presentation | June 2, 2023 | 12:00PM

The Student Production Awards Committee and the Board of Governors of the Suncoast Chapter of the National Academy of Television Arts & Sciences welcome you to the

5th Annual Suncoast Student Production Awards

Friday, June 2, 2023
Virtual Awards Presentation
12:00 pm

The Suncoast Student Production Awards recognize outstanding student achievements in production by conferring awards of merit in the chapter's designated award region of the entire State of Florida, Alexandria, Baton Rouge, Lafayette, Lake Charles and New Orleans, Louisiana, Mobile, Alabama, Thomasville, Georgia and Puerto Rico.

The Suncoast Chapter of The National Academy of Television Arts & Sciences, is a nonprofit Florida corporation dedicated to excellence in television. We support future television industry professionals by recognizing the talent and efforts of college and high school students in our region with Student Production Awards. The presentation of these awards is intended to be an incentive for the continued pursuit of excellence by those studying media and journalism and to focus public attention on outstanding cultural, educational, technological, entertainment, news and informational achievements by undergraduate college/university and/or high school students.

We also provide financial support for college and high school seniors by granting scholarships annually. In May of 2023, we granted \$67,300 to 18 qualified students.

The Suncoast Student Production Award entries are judged against a standard of excellence and not against each other. **There may be one recipient, more than one recipient or no recipient in a given category. There may be occasions in which there are nominees and no recipients.**

THANK YOU!

Suncoast Chapter Scholarship Recipients

The Suncoast Chapter of the National Academy of Television Arts & Sciences 2023 Suncoast Student Scholarship Recipients

The NATAS Suncoast Chapter announced it will award a total of \$67,300 to 18 Suncoast Region students for the 2023 Student Scholarship Awards. The scholarship application period for the 2023-2024 school year took place from February 1 to March 1, 2023.

Each year, the Suncoast Chapter offers scholarships to graduating high school seniors and to college and university students who reside within the Suncoast Region, which includes the State of Florida, the State of Louisiana, the Mobile-Pensacola Market area, and Puerto Rico. In order to be eligible, students must plan to attend or currently attend a four-year college or university in the Suncoast Region and must have a declared major in Communications/Broadcasting with a concentration in television.

"Every year, the NATAS Suncoast Chapter strives to contribute to the education of innovative, high-achieving deserving students," said Claudia Keppinger, Suncoast Scholarship Awards Chair. "It is a privilege and an honor to be part of such an important process that will have an impact on the lives of the students as well as the future of the industry."

This year, the Suncoast Chapter awarded Derryl Barnes Jr. with a \$10,000 Bob Behrens Scholarship, a special award given to a student who embodies enterprising journalism and innovation in the industry. The University of Miami student's exemplary stories, strong work ethic and exceptional character distinguish him among his peers both on and off campus. His faculty mentors admire not only his accomplishments, but his poise, professionalism and perseverance beyond his years.

"Part of the mission of our Suncoast Chapter is to provide resources and support for the next generation of professionals in our industry," said Barbara Alfonso, NATAS Suncoast Chapter President. "Our Chapter is so pleased to honor the legacy and carry on the mission of former Suncoast Chapter Executive Director, Bob Behrens, who was dedicated to fostering excellence in journalism through philanthropic efforts."

Eligibility requirements can be found on the NATAS Suncoast Chapter website. High School students are encouraged to apply [here](#) and College students can find the application [here](#).
